#WALKGREEN

Trees are essential to...

- reducing the greenhouse effect
- producing clean air
- providing food
- cooling cities and streets
- generating oxygen
- preserving natural habitats

Tree Canada

Tree Canada pursues a greener and healthier environment for all Canadians.

Tree Canada has planted over 80 million trees and greened more than 600 schoolyards throughout the country while providing citizens with the tools to plant and care for trees in their community.

Walk Green 2017 Impact

BAPS Charities Centres in Canada will contribute towards Tree Canada's National initiative to plant 10,000 trees in 2017.

BAPS Charities' Centres in America with The Nature Conservancy will plant 100,000 trees through their Plant a Billion Trees initiative.

BAPS Charities is a non profit charity active in nine countries across five continents. Volunteers drive our efforts, dedicating a portion of their lives in selfless service of others both in their local neighbourhoods as well as globally.

Working in five key areas, BAPS Charities aims to express a spirit of selfless service through Humanitarian Relief, Health Awareness, Educational Services, Environmental Protection and Preservation, and Community Empowerment.
